

nanort::StackVector
::StackVector

```
graph LR; A[nanort::StackVector  
::StackVector] --> B[nanort::StackContainer  
< std::vector< T, StackAllocator  
< T, stack_capacity > >, stack  
_capacity >::container];
```

The diagram consists of two rectangular boxes. The left box is shaded gray and contains the text 'nanort::StackVector' followed by '::StackVector' on a new line. A blue arrow points from the right side of this box to the left side of a white box on the right. The white box contains the text 'nanort::StackContainer' followed by '< std::vector< T, StackAllocator' on the next line, '< T, stack_capacity > >, stack' on the next line, and '_capacity >::container' on the final line.

nanort::StackContainer
< std::vector< T, StackAllocator
< T, stack_capacity > >, stack
_capacity >::container
