

nanort::TriangleMesh
::BoundingBox

nanort::TriangleIntersector
::Intersect

nanort::get_vertex_addr

```
graph LR; A[nanort::TriangleMesh::BoundingBox] --> C[nanort::get_vertex_addr]; B[nanort::TriangleIntersector::Intersect] --> C;
```

The diagram illustrates a dependency or call relationship. Two white rectangular boxes on the left represent source functions or methods. The top box contains the text 'nanort::TriangleMesh::BoundingBox' and the bottom box contains 'nanort::TriangleIntersector::Intersect'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'nanort::get_vertex_addr', indicating that both source functions depend on or call this target function.
