

nanort::IntersectRayAABB
< double >

nanort::IntersectRayAABB
< float >

nanort::safemax

```
graph LR; A[nanort::IntersectRayAABB< double >] --> C[nanort::safemax]; B[nanort::IntersectRayAABB< float >] --> C;
```

The diagram illustrates a common constant reference. Two function templates, `nanort::IntersectRayAABB< double >` and `nanort::IntersectRayAABB< float >`, are shown on the left. Blue arrows from both templates point to a single gray box on the right containing the text `nanort::safemax`, indicating that both functions share a reference to this common constant.
